Hi Fellow Campers,

We received a notice from our National Office in New York that either you just joined the Family Campers and RVers, FCRV or have expressed an interest in the organization and would like some further information.

We have a very active group in our State and you are invited to join a chapter in your area or you may wish to remain a member at large if you wish. However, the greatest personal satisfaction to be experienced from your membership in FCRV is to become a member of a local chapter.

If you would like to be put in contact with a chapter in your local area or learn more about the organization, its benefits and programs, feel free to call us and we will try our best to help you.

Again, Welcome or thanks for expressing an interest in the friendliest people in the world, FCRV.

Your Camping Friends,

Doug Riley
